

2012 Physical Education at St. Anne's

It's a new year and so there are new things to look for in St. Anne's health and physical education program. Starting with Walk/Jog/Run, the students are well on their way to the London Olympics. Wenlock, the mascot for the Olympics, has been leading them along the 4022 miles to London and they are now **OVER 3000** miles along their way. (A little math magic makes each $\frac{1}{4}$ mile lap of W/J/R equal 1 air mile between LeSueur and London.) The students have enjoyed celebrating each 1000 mile accomplishment with 'Free Gym Days' (days they get to choose what to do in gym class) and with Gatorades provided by *Radermacher's Fresh Market*. A grand thank you to *Radermacher's Fresh Market* for their 2nd year of sponsoring W/J/R.

A wonderful new addition to the cross country ski program at St. Anne's has been made. Mrs. Holden has donated a ski trail groomer to the school in memory of her husband, Thomas. Mr. Holden made the groomer. This will allow the students to ski over trails on their lunch recess and in gym class, with weather cooperating. A HUGE thank you to Mrs. Holden for her generosity!!

All of this keeps the learning opportunities for health and physical education at St. Anne's fresh and interesting for the students.

Mrs. Wavrin
